Objective

A fresh graduate with the desire and ability to learn more and improve myself by working on my strengths and weaknesses. I have some experience at React and good knowledge of Angular, NodeJS, and MySQL. Primarily, I am seeking a role where I can learn and work on new things in the web development field, which will upgrade my skills with time and make me more efficient.

Education

Palestine Polytechnic University

BA Computer Science   *2018 - 2022*

Experience

A trainee at one of Gaza Sky Geeks' training (React Training - Gaza Sky Geeks**)**   *Sept - Dece 2022*

• I worked in a team, which improved my teamwork and social skills.

• I learned many important principles and concepts which are JSX, hooks, service, routing, and context at React which I used to build many projects.

Skills

Hard skills: JavaScript, React, HTML/CSS, SQL.

Soft skills: Creativity, Take Responsibility, Focusing on the details, Google search skills, Discipline, Collaboration, and teamwork.

Certifications
